CONTENTS

VOLUME 46

	Page
Editorial	1
A re-examination of concepts in magnetic metals: the 'nearly antiferromagnetic Fermi liquid' *By P. W. Anderson*	3
Configurations of fluid membranes and vesicles *By U. Seifert*	13
Origins of scale invariance in growth processes *By J. Krug*	139
Professor Bryan Randell Coles: Obituary	283
Perpendicular giant magnetoresistance of magnetic multilayers *By M. A. M. Gijs and G. E. W. Bauer*	285
Experimental evidence for composite fermions *By R. L. Willett*	447
'Confined coherence' in strongly correlated anisotropic metals *By D. G. Clarke and S. P. Strong*	545
Articles published in Volumes 41–45	iii–vi
